

# SpeakUP AI: 60-Day Master Progression System

*Comprehensive Blueprint, Drilling Mechanics, App Building & 60-Day Curriculum Catalog  
Tailored Specifically for Bangladeshi English Learners*

## 1. Executive Overview & Target Learner Profile

The SpeakUP AI 60-Day Master Progression Plan is a scientifically engineered, highly interactive curriculum designed specifically to address the unique phonetics, grammar, intonation, and confidence challenges faced by Bangladeshi English learners. Whether a student is preparing for the BCS Viva, Bank Job interviews, IELTS Speaking (Band 7.0+), or Corporate Professional Communication, this curriculum provides a clear, day-by-day roadmap.

### Core Bangladeshi Learner Challenges Solved:

- **Mother Tongue Influence (MTI) Sound Substitution:** Standard Bangla lacks labiodental fricatives (/v/, /f/) and dental fricatives (/θ/, /ð/), causing common sound substitutions (/v/ -> /b/, /f/ -> /p/, /θ/ -> /t/, /ð/ -> /d/).
- **Grammar & Stative Verb Confusion:** Frequent errors such as 'I am agree with you', improper past simple storytelling tense shifts, and incorrect preposition additions ('discuss about').
- **Sentence Stress & Flat Intonation:** Lack of sentence rhythm causing monotone speech, hesitation pauses ('uhh', 'umm'), and fear of monologue presentations.
- **High-Stakes Viva Board Anxiety:** Extreme panic and freezing during BCS PSC and Bank Job viva interviews due to lack of real-time panel simulation.

## 2. Scientific Drilling Mechanics & Methodologies

To ensure learners achieve tangible, real-world fluency, SpeakUP AI integrates 5 specialized drilling mechanics directly into daily modules:

1. **Acoustic IPA Mouth Placement Drills:** Visual mouth guides showing upper teeth placement on lower lip for /v/ and /f/, tongue tip placement between teeth for /θ/ and /ð/, combined with immediate Red/Yellow/Green feedback.
2. **CMUDict Syllable Stress Drills:** Multi-syllable visualizer identifying primary stress (■) and secondary stress (■) across 134,000+ words, training accent shifts (Noun: REcord vs Verb: reCORD).
3. **Real-Time Pitch Waveform Shadowing:** Visual dual-pitch canvas displaying native speaker intonation curves alongside learner pitch waveforms for falling tones (statements) and rising tones (questions).
4. **Timed Monologue & Acoustic Pause Detection:** 2-minute cue card monologue drills with acoustic silence detection to eliminate filler words ('uhh', 'umm') and improve pacing.
5. **High-Stress PSC Viva Panel Simulation:** Rapid-fire 3-member AI panel simulation evaluating formal vocabulary, confidence, and quick response under time pressure.

## 3. Psychological Motivation & Gamification Framework

Sustaining momentum across 60 days requires a strong psychological retention loop built on gamification and visible feedback:

- **Daily Streak & XP Multipliers:** Learners build a daily streak badge with XP awards for completing daily tasks. A 24-hour streak freeze protects consistency.
- **3-Tier Mastery Card (■ Mastered, ■ Progressing, ■ Target Improvements):** Live profile dashboard dynamically categorizing learner skills, providing clear visual evidence of daily progress.
- **Curiosity Unlocks:** Each day unlocks upon completing the previous day's task, with 'Curiosity Preview Hints' inspiring learners to come back tomorrow.
- **100% Free Lifetime Progress Tracking:** All 60 days, progress stats, and mastery records remain 100% free forever, building long-term user trust.
- **Grand Graduation Certificate:** Completing Day 60 generates an official high-resolution certificate with student name, final CEFR level, and completion badge.

## 4. App Building & Technical Architecture

The system architecture is structured around `js/curriculum_engine.js`, which coordinates all specialized AI studios:

- **Data Layer (`js/curriculum_engine.js`):** Stores 60 structured daily module objects with `titleEn`, `titleBn`, `diagnosticTipBn`, `targetEngine`, `drillPrompt`, `xpAward`, and `category`.
- **State Management & Supabase Sync:** Tracks `completedDays`, `activeDay`, `streakCount`, and syncs progress to Supabase `user_profiles` table.
- **UI Workspace (`#curriculumWorkspace`):** Integrated into `index.html` and `speak_up_ai_tutor.html`, featuring Dashboard Progress Card, Phase Filter Tabs (Phases 1-4), Day Cards Grid, Search Bar, and Day Detail Modal.
- **Studio Launch Interconnection:** Direct buttons in Day Detail Modal launch AI Tutor, IELTS Studio, BCS Viva, Word Stress Studio, Native Pitch Stories, IPA Lab, or Vocab Bank.

## 5. 60-Day Day-by-Day Master Curriculum Catalog

### Phase 1: Sound Foundation & MTI Sound Elimination (Days 1–15)

| Day    | Module Title                           | Target Studio Engine | Focus Objective                       |
|--------|----------------------------------------|----------------------|---------------------------------------|
| Day 1  | The /v/ vs /b/ Sound Drill             | IPA Lab              | /v/ and /b/ phonetic distinction      |
| Day 2  | The /f/ vs /p/ Friction Fix            | IPA Lab              | /f/ vs /p/ labiodental friction       |
| Day 3  | The /s/ vs /ʃ/ Distinctions            | Word Stress Studio   | Sibilant clarity (Sea vs She)         |
| Day 4  | Dental Fricative /θ/                   | IPA Lab              | Unvoiced 'th' sound (Think, Three)    |
| Day 5  | Dental Fricative /ð/                   | IPA Lab              | Voiced 'th' sound (This, That)        |
| Day 6  | Silent Letters in English              | Word Stress Studio   | Silent consonants (Wednesday, Subtle) |
| Day 7  | Short /ɪ/ vs Long /iː/                 | IPA Lab              | Ship vs Sheep vowel distinction       |
| Day 8  | Short /ʊ/ vs Long /uː/                 | IPA Lab              | Full vs Fool vowel distinction        |
| Day 9  | Daily Self-Intro without MTI           | AI Tutor             | Fluency warm-up without accent slips  |
| Day 10 | Professional Greeting                  | AI Tutor             | Polite openings and tone              |
| Day 11 | Ending Consonants (/t/, /d/, /k/, /p/) | IPA Lab              | Final consonant clarity               |
| Day 12 | Past Tense Endings (/t/, /d/, /ɪd/)    | Word Stress Studio   | Pronouncing -ed verb endings          |
| Day 13 | Describing Your Hometown               | AI Tutor             | Descriptive speech & location vocab   |

|        |                                  |                   |                            |
|--------|----------------------------------|-------------------|----------------------------|
| Day 14 | Daily Routine & Time Expressions | AI Tutor          | Fluid temporal speech      |
| Day 15 | Phase 1 Capstone Test            | Diagnostic Engine | 10 MTI Challenge Sentences |

## Phase 2: Rhythm, Word Stress & Sentence Grammar Repair (Days 16–30)

| Day    | Module Title                      | Target Studio Engine | Focus Objective                        |
|--------|-----------------------------------|----------------------|----------------------------------------|
| Day 16 | Word Stress: Noun vs Verb Shifts  | Word Stress Studio   | REcord vs reCORD accent shifts         |
| Day 17 | Suffix Stress Rules (-tion, -ity) | Word Stress Studio   | Predictable multi-syllable stress      |
| Day 18 | Eliminating 'I am agree'          | AI Tutor             | Stative verbs vs active agreement      |
| Day 19 | Correcting Preposition Overuse    | AI Tutor             | Fixing 'discuss about' & extra prep    |
| Day 20 | Present Perfect vs Past Simple    | AI Tutor             | Tense switching in narrative           |
| Day 21 | Sentence Stress: Content Words    | Native Pitch Studio  | Rhythm and sentence pulse              |
| Day 22 | Master the STAR Framework         | AI Tutor             | Situation, Task, Action, Result        |
| Day 23 | Ordering at a Restaurant          | AI Tutor             | Real-world service interaction         |
| Day 24 | Direct vs Indirect Questions      | AI Tutor             | Could you tell me... structures        |
| Day 25 | Polite Disagreement Phrasing      | AI Tutor             | Constructive debate phrasing           |
| Day 26 | Expressing Opinions with Nuance   | AI Tutor             | From my standpoint... phrasing         |
| Day 27 | Describing Past Experiences       | Native Pitch Studio  | Emotional intonation in stories        |
| Day 28 | Comparing Places & Options        | AI Tutor             | Comparatives & superlatives            |
| Day 29 | Giving Recommendations & Advice   | AI Tutor             | Conditional structures (If I were you) |
| Day 30 | Phase 2 Capstone Fluency Test     | Diagnostic Engine    | 3-Minute Monologue Analysis            |

## Phase 3: Connected Speech & IELTS Monologues (Days 31–45)

| Day    | Module Title                      | Target Studio Engine | Focus Objective                    |
|--------|-----------------------------------|----------------------|------------------------------------|
| Day 31 | Connected Speech: Linking Sounds  | Native Pitch Studio  | Consonant-to-vowel linking         |
| Day 32 | Intrusive Sounds (/r/, /w/, /j/)  | Native Pitch Studio  | Smooth vowel-to-vowel transitions  |
| Day 33 | Intonation: Falling Tone          | Native Pitch Studio  | Definitive statement cadence       |
| Day 34 | Intonation: Rising Tone           | Native Pitch Studio  | Inquiring pitch inflection         |
| Day 35 | Intonation: Fall-Rise Tone        | Native Pitch Studio  | Nuanced polite reservations        |
| Day 36 | IELTS Part 1: Warm-up Questions   | IELTS Studio         | Quick, natural 3-sentence answers  |
| Day 37 | IELTS Part 2: Describe a Person   | IELTS Studio         | 2-minute structured monologue      |
| Day 38 | IELTS Part 2: Describe a Journey  | IELTS Studio         | 2-minute narrative cue card        |
| Day 39 | IELTS Part 2: Describe Technology | IELTS Studio         | 2-minute descriptive cue card      |
| Day 40 | IELTS Part 3: Abstract Discussion | IELTS Studio         | Cause & effect analytical response |
| Day 41 | Corporate Presentation Hooks      | AI Tutor             | Captivating audience opening       |
| Day 42 | 2-Minute Project Update           | AI Tutor             | Executive summary delivery         |

|        |                                |              |                                      |
|--------|--------------------------------|--------------|--------------------------------------|
| Day 43 | Handling Q&A; & Hard Questions | AI Tutor     | Tactful response strategies          |
| Day 44 | Telephone & Virtual Etiquette  | AI Tutor     | Professional remote communication    |
| Day 45 | Phase 3 Capstone Test          | IELTS Studio | Full 2-Min IELTS Cue Card Evaluation |

#### Phase 4: BCS/Bank Viva & C1/C2 Native Mastery (Days 46–60)

| Day    | Module Title                       | Target Studio Engine | Focus Objective                         |
|--------|------------------------------------|----------------------|-----------------------------------------|
| Day 46 | BCS PSC Viva: Self-Introduction    | BCS Viva Studio      | Cadre viva panel opening                |
| Day 47 | BCS PSC Viva: Liberation War       | BCS Viva Studio      | National history questions              |
| Day 48 | BCS PSC Viva: Foreign Policy       | BCS Viva Studio      | Constitutional affairs response         |
| Day 49 | BCS PSC Viva: Cadre Choice Pitch   | BCS Viva Studio      | Admin, Police, Foreign Service pitch    |
| Day 50 | BCS PSC Viva: Pressure Handling    | BCS Viva Studio      | Stress interview composure              |
| Day 51 | Bank Job Viva: Monetary Policy     | BCS Viva Studio      | Financial sector viva questions         |
| Day 52 | Advanced Idioms & Metaphors        | Vocab Bank           | Native-like idiomatic expression        |
| Day 53 | Fast-Talk Speed Shadowing          | Native Pitch Studio  | C1-C2 pace matching                     |
| Day 54 | Complex Debate & Rebuttals         | AI Tutor             | Persuasive rebuttal delivery            |
| Day 55 | Elevator Pitch (60 Seconds)        | AI Tutor             | 60-second high-impact pitch             |
| Day 56 | BBC News Style Clear Delivery      | Native Pitch Studio  | Broadcast intonation precision          |
| Day 57 | Public Speaking Voice Projection   | AI Tutor             | Vocal projection & resonance            |
| Day 58 | Full BCS/Bank Mock Viva Simulation | BCS Viva Studio      | 15-minute simulated PSC panel           |
| Day 59 | 60-Day Progress Review & Audit     | Profile Engine       | Comprehensive skill audit               |
| Day 60 | Grand Graduation & Certification   | Profile Engine       | Final Evaluation & High-Res Certificate |
